## Incredibly high standards, standard.

Purchase a Mazda Certified Pre-Owned vehicle, and we'll throw in your confidence for free. The confidence to greet every turn, on-ramp and green light with the wild abandon of a Mazda owner. It all starts with extreme standards that ensure only well-maintained late-model vehicles are even considered to make the cut.

And if a vehicle's got what it takes, it then faces a rigorous 150-point inspection. Major and minor components are scrutinized, and only then, after it passes the inspection, is the Mazda ready to pass everything in its path. Stringent? Yes. It's why a Certified Pre-Owned vehicle offers the certified thrill of owning a Mazda at a pre-owned value.

### COMPREHENSIVE 150-POINT INSPECTION

How do you measure commitment? Meticulously. Each Mazda Certified Pre-Owned vehicle has passed a comprehensive 150-point inspection, which means everything under the hood—and above the hood—is analyzed by factory-trained technicians. From brakes to transmission to A/C and heating, this is how we ensure every vehicle will look and perform like a new Mazda. It's a process we take very seriously, and we set our standards high. If a vehicle doesn't meet these standards, it'll undergo a thorough reconditioning using Mazda Genuine Parts until it's worthy of sporting Mazda's CPO stamp of approval. Below are just a few inspection highlights:
