

# Mercedes-Benz Vans 2017

Mercedes-Benz  
Vans. Born to run.

# Designed for your peace of mind.

With over 120 years of innovation and hard work behind us, we've built a solid reputation of quality, reliability, and dependability. Every one of our vans, from the Sprinter to the Metris, is skillfully constructed from the ground up. But we build more than just a work vehicle – a Mercedes-Benz van is designed to provide you with a best-in-class ownership experience. It stands for everything we have done, and everything we will do for you and your business. Giving you the peace of mind that no matter where your business is headed, there's a van ready to move forward with you.

# The demands of the job.

New day. New challenges. Our vans come stacked with features that help you meet the demands of every job.

## Efficiency

With the most advanced powertrains available and extended maintenance intervals, nothing works more efficiently than a Mercedes-Benz.

### DIESEL POWERTRAIN

The Sprinter's V6, 3.0 L BlueTEC diesel engine<sup>1</sup>. With a 5-speed transmission, 188 hp, and 325-lb-ft of torque, you'll never find this level of efficiency and power in any other drivetrain on the road.

### GASOLINE POWERTRAIN

Big power comes in a small package, as the Metris' incredibly capable and efficient 2.0 L, 4-cylinder turbocharged gas engine delivers 208 hp /258 lb-ft torque.

### MAINTENANCE INTERVALS

With impressively high maintenance intervals, our reliable vans are engineered to extend time needed between servicing, saving you time and money.

## Safety

Your cargo and passengers are your highest priority. Our standard and optional safety features, like Blind Spot Assist<sup>4</sup>, deliver an elevated level of protection, so you can deliver on the job. With safety features exclusive to Mercedes-Benz, such as ADAPTIVE ESP<sup>®2</sup> with ESP<sup>®</sup> Trailer Assist, COLLISION PREVENTION ASSIST<sup>3</sup>, and Crosswind Assist<sup>5</sup>, our vans are designed for your peace of mind.

### BLIND SPOT ASSIST<sup>4</sup>

Detects hidden traffic on either side of the vehicle and alerts the driver if the turn signal is activated.

### ADAPTIVE ESP<sup>®2</sup> WITH ESP<sup>®</sup> TRAILER ASSIST

Provides maximum stability during wheelspin, understeer, or oversteer events.

### COLLISION PREVENTION ASSIST<sup>3</sup>

Radar-based system that triggers a series of split-second actions in order to prevent rear-end collisions.

### CROSSWIND ASSIST<sup>5</sup>

Helps maintain control in windy conditions by detecting strong wind gusts.

## Functionality

The spacious Sprinter. The go-anywhere 4x4. The agile Metris. Our vans are built for your business. They carry more, haul more, and do more than any other vans in their classes. You'll find innovation at every turn in our durable and refined interiors. And with standard and optional equipment, your work environment is optimized to be comfortable and efficient.

## Comfort

Take the wheel, and experience Mercedes-Benz comfort for yourself. A refined and ergonomically-designed interior gives you the room you need to work. Inside, you'll find everything you and your business requires: an intuitive and easy-to-reach control panel, standard Bluetooth<sup>®</sup>, USB input, and Comfort Package options. And with driver assistance features like PARKTRONIC working to make manoeuvring a breeze, our vans deliver a driving experience unlike any other.

# Metris Cargo Van

Narrow streets. Low garages. Tight parking. Nothing stops the Metris from driving your business forward. With an incredibly fuel-efficient powertrain, ample cargo space, and hefty towing capability, you'll be hauling more of what you need. As Canada's only mid-size work van, it's the perfect fit for your business.

## HIGHLIGHTED FEATURES

- Tight Turning Radius: 11.8 m (38.7 ft)
- Overall Length: 514.1 cm (202.4 in)
- Overall Height: 189 cm (74.4 in)

## Fleet solutions that mean business.

With the lowest Total Cost of Ownership in their class, Mercedes-Benz vans are the ideal solution for businesses requiring a reliable fleet. No other manufacturer offers more versatility or more ownership savings. From the customizable Sprinter to the mid-size Metris, we have the solutions that mean business.

Our National Fleet Sales program provides exclusive fleet pricing, nationwide delivery capability, and comprehensive service programs tailored specifically to your fleet requirements. Find more information at [Mercedes-Benz-Vans.ca/Fleet](http://Mercedes-Benz-Vans.ca/Fleet).

## Best Fleet Value in Canada.

For five consecutive years, the Mercedes-Benz Sprinter has received the coveted **Vincentric Best Fleet Value in Canada™** award. We are proud to announce that in its first year on the market the Metris has also been honoured for its best-in-class

fuel efficiency, extended routine maintenance intervals, and outstanding retained value. The Sprinter and Metris don't just claim to be the best fleet solution, they've earned it.

\*Whichever comes first - maximum 3 services; †Whichever comes first - maximum 9 services. Certain terms and conditions apply. An administration fee and certain terms and conditions apply.

## Built to your standards, and ours.

Mercedes-Benz vans are built to meet the highest standards. It's what you've come to expect from us. And now, it's what you can expect from our growing network of MasterUpfitters. Nothing gives you more flexibility than a Mercedes-Benz van. Every aspect of our vans is designed to provide the ideal

foundation so you can customize a workspace that fits your needs. And when combined with the expert craftsmanship of a Mercedes-Benz MasterUpfitter, there simply isn't a more versatile work van on the road. Find a complete list of approved upfitters at [mbvans.ca/upfitters](http://mbvans.ca/upfitters).

## Keep it moving.

Put one of our vans to work, and we'll help make sure it stays there. Our Mercedes-Benz trained technicians will ensure your van is properly serviced and ready to go. With our Prepaid Maintenance program, we help prevent routine scheduled maintenance costs from catching you by surprise.

Prepaying these costs locks them in, so as prices rise, your maintenance budget won't have to. And to make sure your van stays busy, we've backed it with some of the most comprehensive warranties in the business, including our Extended Limited Warranty.

# Finance solutions that fit.

We make the hardest-working vans on the road. So it's no surprise that the professionals at Mercedes-Benz Financial Services work just as hard to find the right finance solution for you. If you're looking to lease or purchase, we offer a variety of products and solutions with flexible benefits and competitive rates tailored to your business.

# Connect with us.

True to our Mercedes-Benz heritage, we continue to raise the bar on quality, safety, and reliability. Guided by these core values, from our latest Sprinter and Metris models, there's a van that works for you. Experience it for yourself. Stop by an authorized Mercedes-Benz dealership today.

[Mercedes-Benz-Vans.ca](https://Mercedes-Benz-Vans.ca)

From trades to travel, connect with us and share your passion for Mercedes-Benz.

## Mercedes-Benz

Vans. Born to run.

1. Requires the use of ultra low sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content) in all BlueTEC engines. The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-/corrosion-related damages to the system (min. 6h, proven by EN14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz Sprinter New Vehicle Limited Warranty does not cover damage caused by non-Mercedes-Benz approved fuel standards.
2. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seatbelt.
3. COLLISION PREVENTION ASSIST may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
4. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions. Not available on Cab Chassis.
5. Caution: Crosswind Assist can only act within the laws of physics. If the driver exceeds the physical limits, even Crosswind Assist will not be able to prevent an accident.

\* Vincentric™ is a renowned third-party research group that provides data, knowledge, and insight to the automotive industry by identifying and applying the many aspects of automotive ownership costs. Vincentric results based on most recent cost-of-ownership calculations in the retail market.
