

# 2018 Beetle

Driven by originality.

Easily recognizable, and instantly lovable, there's simply no mistaking the Beetle on the road. It's remained a standalone by standing the test of time, and for all the right reasons. Affordability, reliability, economy and, of course, its distinctive look and feel. But like its adoring fan base of surf dudes, college kids, and hippies of yesteryear, the 2018 Beetle has grown up big time. From intuitive high-tech gadgetry to cutting-edge performance and safety systems, you get the latest and greatest of everything for carefree cruising and adventure. So while a lot about the Beetle has changed, one thing hasn't – it's still as fun to drive as it looks.

## Key Features

### Iconic design

The Beetle's iconic good looks have always put it miles ahead of anything else on the road. Decidedly simplistic, and boldly individualistic. Its classic lines and sassy silhouette shake the dust out of the mundane, making every drive come alive.

### Available dashboard in surfwood design

Even if you're traversing the concrete jungle, you can still enjoy the feeling of sand between your toes, with the surfwood-design dashboard. Think of it as laid-back luxe – a little bit nautical, and a whole lot of natural.

### Rear spoiler

Spoiler alert: this classic accent has long been a favourite on professional racing circuits, improving aerodynamic efficiency that can boost performance and fuel economy. It also makes your rear end look, dare we say, racy.

### Available Bi-Xenon headlights with LED daytime running lights

It's not just the Beetle's inimitable good looks that give you added visibility on the road. Powerful Bi-Xenon headlights carve through the inky black of night, with stunning LED running lights sure to command the attention of those who follow.

### Available Fender® Premium Audio System

What's the ideal complement to a design legend on wheels? Legendary Fender® fidelity, of course. This premium 400-watt sound system features perfectly placed speakers to deliver an unparalleled listening experience, from booming bass to heavenly highs.

### Available Climatronic® dual-zone electronic climate control

When we say we've designed the Beetle just right, we mean it – right down to ensuring everyone's comfort. Climatronic® dual-zone electronic climate control lets both occupants in the front choose their own individual temperature preference to within half a degree of one another.

Trendline (TL)
